

ENHANCE TRAINING offers a wide and interesting range of learning opportunities in this award. To be a great nanny and child care assistant you will need not only to understand how children grow and develop but also to have fun with them. We have designed a very practical course to make sure that, while you are enjoying yourself you learn some great skills.

During the course you will acquire practical skills including daily care practices for babies. You will experience how you can be creative with children using a wide variety of materials in different ways along with gaining knowledge in children's health and safety needs, communication skills and employment needs.

You will gain hands on experience in a family home usually with a baby and a toddler or multiple birth babies. This practice with families occurs two days per week and for one full week during the course. On completion of Certificate II, you can upgrade to Certificate III or Diploma level, or you can work as a Nanny locally or overseas or as a child care assistant in a childcare centre. Upgrading is encouraged for those considering work in a Childcare Centre or wanting to pursue a career in Early Childhood Education.
